December 23, 2020

Dear Basic Service Customer,

The city of Medford approved a Community Electricity Aggregation program authorizing our community to aggregate the electricity load (usage) of those residents and businesses that are on Basic Service with National Grid. The goals of the Program are to provide you with competitive choice, longer-term price stability and more renewable energy options.

Este aviso contém informações importantes da Câmara Municipal sobre o seu serviço de electricidade e o aviso deve ser traduzido. Em caso de dúvidas, ligar para o serviço de atendimento ao cliente (grátis) pelo número (866) 220-5696.

You will be automatically enrolled in the Medford Community Electricity Aggregation program unless you choose not to participate. **YOU MUST MAIL AND POSTMARK YOUR OPT-OUT CARD ON OR BEFORE JANUARY 25, 2021 TO AVOID AUTOMATIC ENROLLMENT IN THE AGGREGATION PROGRAM.**

After a competitive bid process, Dynegy was selected as our Electricity Supplier with a contract starting on the date of your scheduled February 2021 meter reading and expiring on your December 2022 meter reading. A comparison of the rates for the aggregation program and current rates for National Grid Basic Service are shown below.

Rate Class	"Medford Local Green" Five (5) Percent More Renewable Energy Than Required (Standard Product - No Action Required)	"Medford Premium Local Green" (100) Percent Local Renewable Energy	"Medford Basic" Minimum Required Renewable Energy	Current National Grid Basic Service
Residential	\$0.11507/kWh	\$0.14690/kWh	\$0.11341/kWh	\$0.12388/kWh
Small Commercial	\$0.11507/kWh	\$0.14690/kWh	\$0.11341/kWh	\$0.10763/kWh
Industrial*	\$0.11507/kWh	\$0.14690/kWh	\$0.11341/kWh	\$0.11325/kWh *NEMA
Duration	December 2019 – December 2022 Rates apply to service beginning and ending on the days of the month that your meter is read in your service area.			November 1, 2020 – April 30, 2021, or January 31, 2021* Residential and Small Commercial rates change every six months. *Industrial rates change every three months.

Rates indicated above are for Supply Services only. Under the contract, the rate per kWh (kilowatt-hour) for electric supply will be fixed until your December 2022 meter reading. The Standard Product rate for Residential customers will remain below National Grid's Basic Service rate until at least May 1, 2021 when National Grid's Basic Service rate for Residential customers change. The Standard Product rate for Small Commercial customers is not below National Grid's current Basic Service rates. The Standard Product rate for Industrial customers is not below National Grid's current Basic Service rates which changes on February 1, 2021. Program prices could increase as a result of a change in law that results in a direct material increase in costs during the term of the electric supply agreement.

There is no guarantee of savings. The primary intent of the Program is to provide price stability and savings over the duration of the 36-month term. However, National Grid rates for electric supply change every six months for Residential and Small Commercial customers and every three months for Industrial customers. Thus, National Grid's Basic Service rates may be above or below the Program rate during any subsequent period.

**ADMINISTRATIVE ADDER** for all Medford programs is included in above rates. This fee is \$0.001/kWh for the aggregation consultant.
